## COLORI RIVESTIMENTI TESSIL / TESSIL COATING COLOURS

TESSIL: tessuti tecnici realizzati con fili di poliestere ricoperti in PVC, intrecciati e termosaldati, idrorepellenti, autoestinguenti e antibatterici. Eccellente resistenza all'usura e agli agenti atmosferici, alla salsedine e alle escursioni termiche. Non assorbono lo sporco e sono facilmente lavabili con acqua e sapone. Per questioni di stampa i colori sono indicativi.

*TESSIL: technical textiles made of interwoven, thermosoldered, and PVC-coated polyester yarns, water repellent, fire retardant and antibacterial. They offer an excellent durability and resist to atmospheric agents, sea salt, and temperature ranges. Soil resistant, they can be easily cleaned with soapy water. Due to printing reasons, colours are indicative only.*
